Minor: Computer Science

Experience

Old Navy

June 2016-August 2016

- Courteously greeted customers and processed transactions with busy, fast paced environments
- Operated cash register, scanners and computers to itemize as well as for customer purchases
- Assisted with store stocking, floor-sets and operating/closing procedures

Youth Advisory Board

December 2014-June 2016

- Managed and approved grant proposals for Far Northeast Denver's Montbello community
- Organized community events for the Steps to Success Youth Violence Prevention Project

Walgreens Pharmacy (Intern)

February 2015-May 2015

- Took prescriptions over the phone and in person
- Worked with health professionals and customers; answered questions and relayed information to pharmacists
- Helped mix medicines, count pills, measured medication, labeled and gave instructions for medicine, and helped take payments

Research

Forebrain Development Laboratory

September 2017- Present

- Worked on quantification methods of large data sets
- Creation of accurate visuals for data interpretation
- Prepared fish embryos following protocol

Dating Historical Manuscripts Laboratory

August 2016-Present

- Used C++ and MatLab programs to date Syriac documents from the Vatican Library

Sex and Variability Laboratory

December 2016-May 2017

- Assisted with hamster surgeries and administered medication
- Followed detailed operating procedures and protocols with minimal supervision
- Consolidated data for analysis
